

## STOCKS

The market opened strong on all Goldfields. Jumbo Extension weakened from \$1.82 1/2 to \$1.60. This softened the entire market. Good reports come from Goldfield on the Atlanta and Booth mines.

The following are the closing stock quotations, and the record of the day's sales, as received from the San Francisco stock exchange this afternoon by Broker H. E. Epstein:

## OFFICERS INSTALLED BY EASTERN STAR

## OUTGOING OFFICIALS PRESENTED WITH BEAUTIFUL JEWELS OF THE FRATERNITY

Last evening at Masonic hall Harriet Brown, W. M. of Turquoise chapter, No. 10, O. E. S., assisted by Mary M. Davis, marshal, and Anna Lindsay, organist, installed their officers for the ensuing year. The installing officers did their work in a most creditable manner and the impressive ceremonies were much enhanced by the accompanying lovely music and the beautiful flowers used in parts of the work.

The officers installed were: Cornelia Ferris, W. M.; Ralph Wardle, W. P.; Clara Galvin, assoc. M.; Ruby Pettygrove, secretary; Amelia May, treasurer; Ida Cochran, conductress; Lizzie Wardle, associate conductress; A. L. Brown, chaplain; Harriet Brown, marshal; Dora Parker, organist; Pauline Tasem, Adah; Mary J. Davis, Ruth; Matilda Wittenburg, as proxy for Adelaide Simmons, Esther; Lulu Haseman, Martha; Lynn Lewers, Electa; Emma Tresize, warden, and J. L. Simmons, sentinel.

After the installation ceremonies were concluded, the following program was rendered: Presentation of jewel to outgoing matron, Harriet Brown, by Mary M. Davis; response, Harriet Brown; presentation of jewel to outgoing patron, J. L. Simmons, by A. L. Brown; response, J. L. Simmons; addresses by Cornelia Ferris, W. M.; Ralph Wardle, W. P.; Thos. Lindsay, P. W. G. P.; Marie Burdick, assoc. G. M. and Clara Galvin, assoc. M.; piano solo, Dora Parker, and last, but not least, a serio-comic conception entitled "The Cause of the European War," composed and rendered by Thos. Lindsay and Ralph Burdick. The banquet which followed was a dream of good things and doubtless caused many dreams during the wee sma' hours.

A round of toasts followed, Ollie Stewart presiding as toastmaster, of which art she is past mistress. Thus ended a most enjoyable evening.

## UNIVERSITY BOYS GET JOBS

Following their graduation at the State university F. C. Gogaux has been appointed electrician for the Seven Troughs Mining company at Seven Troughs. Harvey McPhail becomes electrician and draughtsman for the Canyon Power company at Lahontan. Delwin Desmar goes to the Southern Pacific as electrician, and P. G. McKinley becomes engineer for the Buckhorn Mines Power company.

## KNIGHTS OF COLUMBUS WILL VISIT GOLDFIELD

A large class of novitiates will be initiated next Sunday at Goldfield by the Knights of Columbus. Tonopah council members will attend. If 75 find it possible to take the trip a special train will be run, otherwise the trip will be made by autos.

## ATLANTA HAS VALUES IN SHALE FISSURE

A wire to the office of the Chas. S. Sprague Investment company this morning states that the Atlanta has broken into ore in the shale, evidently a fissure vein. Grab samples across the face yield \$9.50. Two feet of the breast samples \$17.80 and the next foot \$9.50.

## TEMPERATURE REPORT

Highest temperature yesterday, 33; a year ago, 42.  
Lowest temperature last night, 26; a year ago, 29.

## RECEIVING CLASS TEACHER SELECTED

## MISS CLARA FITZGERALD, OF LAS VEGAS, ACCEPTS POSITION IN PUBLIC SCHOOLS

Miss Clara Fitzgerald of Las Vegas has been chosen to fill the vacancy that will exist in the grades when the new receiving class is started. Miss Fitzgerald was selected Monday evening from a large number of applicants during a meeting of the school board. Her acceptance was received by wire yesterday afternoon and she will be here in time to begin work on the morning of January 25. Miss Fitzgerald is a graduate of the Oshkosh, Wis., High and Normal schools and has had four and one-half years of highly successful experience, two in Appleton, Wis., and two in the city schools of Ogden, Utah. She is now teaching in Las Vegas, Nevada, and is highly commended by the principal under whom she has worked there. She comes with strong recommendations from each of the schools in which she has taught.

When the new receiving grade is started, it will be taught by Miss Withers, who is now teaching the overflow from grades three and five, the room which will be given to Miss Fitzgerald. Miss Withers is specially fitted by experience and training for primary teaching, while Miss Fitzgerald has taught the higher grades in each school where she has formerly been engaged.

Entrance to the new grade will be limited to those who will be six years of age by June.

Deputy State Superintendent B. G. Bleasdale spent Monday and Tuesday inspecting the grades and high school and left this morning for Carson City on other school business.

## WHAT IS THE BRITISH NAVY ACCOMPLISHING

## OFFICER SAYS NOT INTENTION OF ADMIRALTY TO FIGHT FORTRESSES

LONDON, Jan. 12.—The query so often asked in the papers, "What is the navy doing?" is beginning to make the navy people angry. One officer has answered in the following manner: "It is aggravating to hear the unthinking person imply that we are doing nothing. Herr Ballin, manager of the Hamburg-America line, says we are lurking in our harbors. Let me say that from the first of August to the middle of November my ship has sailed 17,000 miles, and we have never been very far from the grand fleet. We are playing our own game, not the Germans. The unthinking ask why we do not go in and attack Kiel, Wilhelmshaven, Cuxhaven and Heligoland. Not much. We have our own plans, and the Germans are certainly not going to lure our splendid fleet into their mine-infested areas and under their fortresses, with the added danger of submarines."

"We are not out to fight fortresses. We are after their ships. Guns are put into ships so that they can be moved about, and the Germans are not increasing their efficiency by remaining under the protection of their forts. We are adding to our efficiency every day, taking every opportunity for the practice of gunnery, the use of torpedoes, and also battle tactics, practicing under every condition of weather. As things stand, the seas are clear for British trade. Let those who say we are doing nothing imagine what would happen if we were really doing nothing. What would become of our islands in that event? Our time will come to get into the limelight. Meantime, we are content to watch and wait."

## CALIFORNIANS BUY NEVADA PROPERTY

Saturday the last instalment of a \$20,000 purchase price was paid the Comstock Mining and Milling company by Alexander Logie and associates of San Francisco, for the Morgan mill property at Empire, and the ownership of the estate has now passed to the California parties, says the Carson Appeal. The Morgan mill property comprises 800 acres of land along the river, with the tailings, deposits and the old forty-stamp mill used during the days of the boom.

In the past few months the new owners have done some thorough prospecting of the ground and are satisfied that with up-to-date machinery they will be able to recover a vast amount of metal lost during the mill rush of years ago. Early this spring, or as soon as the weather moderates and permits continuous working, they will install a series of dredges and get down to an active campaign of extraction.

## PERSONAL

MRS. STEVENS, of the Cloverdale ranch, is stopping at the Mizpah.

P. J. CONWAY, the big rancher of Stillwater, was in Tonopah yesterday.

S. W. STEFFNER, a Manhattan mining man, arrived from the pine tree camp this morning.

H. H. ATKINSON was called to Round Mountain yesterday on law business. He will return tomorrow.

DR. JOHN COOPER of Topeka, Kansas, spent yesterday in Tonopah, the guest of his uncle, Ed Brown.

WM. NELLIGAN, a pioneer painter of Tonopah, passed through this city yesterday on his way to Goldfield.

W. B. SOLLENDER, accompanied by William Wilson, Jr., took his departure yesterday for Bishop.

WALTER TRENT, manager of the Trent engineer works, is here from Reno interviewing the mining companies.

H. C. BROUGHER, president of the Tonopah Banking corporation, arrived this morning from his Oakland home.

JOE RANDOLPH, who was called to Sutter Creek, Cal., by the death of his brother-in-law, returned to Tonopah yesterday morning.

B. G. BLESDALE, deputy superintendent of public instruction, arrived from Las Vegas and departed this morning for Carson City.

JUDGE J. EMMETT WALSH of Esmeralda county went to Reno yesterday to try his first case. It is the matter of Forsythe against Heward, a will contest.

EARL AND BERL, the twin sons of Mr. and Mrs. George Murphy, departed yesterday morning for Sacramento, where the boys will enter school.

P. V. ROVNIANEK and wife arrived today from Orizaba, where they are interested in a mining property, as well as in the coal deposits near Coaldale.

HUGH H. BROWN and wife returned this morning after a week spent at San Francisco, Reno and Carson City, where Mrs. Brown visited friends and the judge attended to legal business.

## RENO'S SITE ONCE BED OF INLAND SEA

## TOOTH OF RHINOCEROS 5,000,000 YEARS OLD PROVES THIS THEORY

The existence of a lake over the Truckee Meadows about 5,000,000 years ago, during the Miocene age, is declared by Prof. J. C. Jones, geologist of the Mackay School of Mines, to be indicated by the finding of the tooth of a pre-historic rhinoceros about a mile this side of Verdi, says the Gazette.

The tooth was found last summer by John B. Bawalda, a graduate student of the University of California, who has just completed a technical paper describing his discovery and its significance. The tooth was found near the railroad cut this side of Verdi where plant fossils had already been discovered. From evidence before uncovered, it was supposed that the fossil beds of the Truckee were of the Miocene age, but the rhinoceros tooth is declared to clinch the conclusion as to the length of time the fossil beds have existed. Earlier evidence of the age of the beds came from fossil deposits in the Kawach mountains, along the east side of the Virginia range. Forty years ago the United States geological survey declared the rocks to be of the Miocene age, but the tooth recently discovered is the first proof.

The lake supposed to have existed in this vicinity is regarded as distinct from the ancient Lake Lahontan that covered a huge area in Utah and Nevada. Since it dried up, or possibly while it existed, faults in the earth, it is supposed, threw the lake bed upward in mountainous masses to form the present topography of the country.

## WILSON WILL VETO IMMIGRATION BILL

(By Associated Press.)  
WASHINGTON, Jan. 13.—President Wilson intimated today to callers that he will veto the immigration bill because of the literacy test. In advance of the final passage of the bill by congress, he said he would not announce his intention, but added that his callers could form a shrewd guess of what his position will be.

## SEASON NOT PROVING VERY PROFITABLE FOR LAWYERS

Litigation seems to be becoming a lost art in Nye county. Not a single document instituting a civil action has been filed thus far this year in the office of the clerk of the district court.

## AMUSEMENTS

## BUTLER THEATER.

At the Butler theater this evening a high class program will be presented, as follows: "Josie's Declaration of Independence," a Vitagraph comedy; Pathe Weekly of Current Events; and a two-reel Essanay drama featuring Francis X. Bushman, entitled "The Private Officer." Though the caption of this two-part drama is rather puzzling to the spectator at first, the development of the plot rapidly evaporates the enigma. Francis X. Bushman essays a dual role most artistically and is ably assisted by Beverly Bane, Thomas Commerford and Lester Cuneo. The plot is laid at Fort Barton and most of the scenes take place in the environments of the barracks. This visualization is very edifying. Friday, the last number of "The Perils of Pauline." Next Tuesday, "Zudora."—Adv.

## WOMEN'S RELIEF CORPS

Gettysburg Relief Corps, No. 22, will hold a meeting Thursday evening, Jan. 14th, at which installation of officers for the ensuing year will take place. All members and G. A. R. men are urged to be present.

By order of the president,  
Jan 13-21 ELLA J. BRANN.

If you bought nothing but advertised goods during the next twelve months, you'd reduce the cost and raise the standard of living—surprise!
